... because we build YOUR BRAND!

"There are a million teams out there wearing red and white or blue and white and you never know who they are when you see them on the field. I went to a tournament and saw a team wearing unique colors and found that they were wearing Admiral. I pulled up the Admiral website when I got back to the house and found that they have a "kit builder", which was wonderful. I used the kit builder and designed our kit in our colors and loved it! Our club is no longer tied to the four primary colors that other major uniform vendors offer and the styles will continue since we developed the kit. This is great for the kids, who after paying their annual fees, now won't have to spend additional money purchasing new uniforms each year. Admiral provides us with a unique look at a more competitive price."

Cancellations: Orders cannot be cancelled once confirmed online, via phone or in writing.

Returns: We accept returns of non custom, non embellished product within 14 days of delivery. We do not refund or exchange customized, worn or laundered items.

Normal wear & tear; All equipment may need replacement after a season of play due to normal wear and tear, this is normal and expected. Normal wear and tear will begin to show within the first few uses. These occurrences are common and not indicative of an item's defectiveness (poor workmanship or materials).

Availability; no manufacturer can guarantee availability of every product, size and color at all times. Balls, bags, outerwear and accessories are subject to availability.

Turn the product inside out - before putting it into the washer. This will help protect any names, numbers or patches.

Pre-soaking may be necessary in getting items clean. Rinse off items to remove as much loose dirt and mud as possible.

NEVER use chlorine or bleach on items, it is not effective for polyester fabrics and can even damage the material.

It is best not to wash items with other clothes.

Wash in cold water. Never use hot water this can damage lettering and numbers. Hot water will set stains making them harder to remove.

Never put apparel in a dryer, lay flat and hang dry. High heat causes shrinking, sets in stains and fades colors.

Sizing guide: Pro Fit jerseys are designed differently to Standard Fit jerseys. The Pro Fit is a more modern athletic cut with narrower shoulders, shorter sleeves and smaller arm holes. It is ~1½" shorter than the Standard Fit and the chest is ~¾" smaller. Use sizing samples for the most accuracy & don't rely on previous uniforms for sizing. The online "fitting room" is only a guide http://admiral.axisoccer.com/fitting_room/ it is your decision whether to "size up" for a "looser" fit on items.
